How to apply for the MTSU Office of Education Abroad Scholarship

Step 1.
On the MTSU Office of Education Abroad homepage, click “Program Search”
Step 2.
Use the drop down box at the “Show” section and select Scholarship.
At the bottom of the screen, select the “Search” button.
Step 3.

All open Office of Education Abroad Scholarships will appear in a list. Select the correct scholarship by clicking on the scholarship name. Please note: you must apply to the correct scholarship or your application may not be considered; we will not see your application if you apply to the wrong one.
Step 4.
To apply, click the “Apply Now” button.
To read more about the scholarship, view the Program Description information at the bottom of the page. We highly encourage you to read the Eligibility Requirements in this description or in the Scholarships section of the website.
Step 5.
Please select the top option “I have a Pipeline username and password” and log in with your Pipeline credentials.
When you log in, your Pipeline user name should not be your full email address. Ex: if your MTSU email is johndoe5@mtmail.mtsu.edu, please use johndoe5 as your user name.
Alternately, you can use your M# as your user name when you log in.

You will be directed to the Pipeline log-in page. Select the term and “Apply”
Step 6.
On your home page, view your applications on the left. This will include your program application and your scholarship application (if you have applied for one). Click on the application name to continue.
Step 7.
On the Program Application Page, complete BOTH the Application Questionnaire and the Signature Document. Your application is complete if and only if the boxes next to these are checked off as received. Any application you complete in our system will be set up in this way: Program information on the left, application requirements on the right.

You may have to scroll down to view all the required documents on the screen (especially later in the application process).
